

$$R_A = 20 \times 6.91 - \frac{1}{2} \times 2 \times 6.91^2 = 90.215 \text{ m desde A}$$

$$V_A = V_{0A} - a t = 20 - 2 \times 6.91 = \underline{6.18 \text{ m/s}}$$

$$V_B = V_{0B} - a t = 30 - 2 \times 6.91 = \underline{16.18 \text{ m/s}}$$
